Behe serves as professor of biochemistry at Lehigh University in Bethlehem, Pennsylvania, and as a senior fellow of the Discovery Institute's Center for Science and Culture. He advocates for the validity of the argument for irreducible complexity (IC), which claims that some biochemical structures are too complex to be explained by known evolutionary mechanisms and are therefore probably the result of intelligent design. Behe has testified in several court cases related to intelligent design, including the court case Kitzmiller v. Dover Area School District, where his views were cited in the ruling that intelligent design is not science... db8f728d44 Dembski has written... db8f728d44

Lonergan's works include *Insight: A Study of Human Understanding* (1957) and *Method in Theology* (1972), as well as two studies of Thomas Aquinas, several theological textbooks, and numerous essays, including two posthumously

published essays on macroeconomics. Lonergan held appointments at the Pontifical Gregorian University; Regis College, Toronto, as distinguished visiting professor at Boston College, and as Stillman Professor of Divinity at Harvard University. db8f728d44 Science fiction and fantasy have traditionally been aimed at a male readership, and can be more restricted than non-genre literature by their conventions of characterisation and the effect that these conventions have on depictions of sexuality and gender. However, speculative fiction also gives authors and readers the freedom to imagine societies that are different from real-life cultures. This freedom makes speculative fiction a useful means of examining sexual... db8f728d44
