Merini's writing style has been described as intense, passionate and mystic, and it is influenced by Rainer Maria Rilke. Some of her most dramatic poems concern her time in a mental health institution (from 1964 to 1970). Her 1986 poem *The Other Truth. Diary of a Misfit* (L'altra verità. Diario di una diversa) is considered one of her masterpieces.

Project-based learning It is a style of active learning and inquiry-based learning. including the view that

“the teacher is not in the school to impose certain ideas or to form certain habits in the child, but is there as a member of the community Project-based learning is a teaching method that involves a dynamic classroom approach in which it is believed that students acquire a deeper knowledge through active exploration of real-world challenges and problems. Project-based learning contrasts with paper-based, rote memorization, or teacher-led instruction that presents established facts or portrays a smooth path to knowledge by instead posing questions, problems, or scenarios. Students learn about a subject by working for an extended period of time to investigate and respond to a complex question, challenge, or problem

Cooperative learning " Students must work in groups to complete tasks collectively toward academic goals. Ross and Smyth (1995) describe. Unlike individual learning, which can be competitive in nature, students learning cooperatively can capitalize on one another's resources and skills (asking one another for information, evaluating one another's ideas, monitoring one another's work, etc. compared to working alone. There is much more to cooperative learning than merely arranging students into groups, and it has been described as "structuring positive interdependence. However, it wasn't until 1937 when researchers May and Doob found that people who cooperate and work together to achieve shared Cooperative learning is an educational approach which aims to organize classroom activities into academic and social learning experiences.). Furthermore, the teacher's role changes from giving information to facilitating students' learning. Everyone succeeds when the group succeeds

Philosophy for Children The lessons are dialogue-based Philosophy for Children, sometimes abbreviated to P4C, is a movement that aims to teach reasoning and argumentative skills to children. There are also related methods sometimes called "Philosophy for Young People" or "Philosophy for Kids". The questions set the agenda for a collaborative inquiry where the teacher acts as both facilitator and co-inquirer. However, there is also a long tradition within higher education of developing alternative methods for teaching philosophy both in schools and colleges. Often the hope is that this will be a key influential move towards a more democratic form of democracy. response 8755af0b03
