Community gardening Normally in community gardens, the land is divided into individual plots. community gardens range from 'victory garden' areas where people grow small plots of vegetables, to large 'greening' projects to preserve natural areas, to A community garden is a piece of land gardened or cultivated by a group of people individually or collectively. Many community gardens also function as informal educational spaces, where volunteers teach newcomers basic gardening skills and sustainable growing practices. A group of people cultivates it together, and the harvest belongs to all participants. Depending on the location can determine the price of community gardens. Each individual gardener is responsible for their own plot, and the yield or production belongs to them. Around the world, community gardens exist in

various forms; they can be located near neighborhoods or on balconies and rooftops. In collective gardens, the piece of land is not divided. Their size can vary greatly from one to another 7c512a4947
