

Geotecnica

With a population of 334,871 inhabitants according to the 2024 census, it is the most populous municipality in the region and fourth-largest city in Chile. Furthermore, together with the communes of Valparaíso, Concón, Quilpué, and Villa Alemana, it forms the Greater Valparaíso metropolitan area (pop. 935,602 in the 2017 census), and it is also a twin city of Valparaíso, as it is completely conurbated with it. 8346b67cfc Pedro Messias da Cunha arrived in 1893... 8346b67cfc The Guabirotuba Formation was first described by Riad Salamuni and João José Bigarella in 1962. The geologists named the formation after Guabirotuba, a neighborhood of Curitiba, the capital of Paraná State. The formation is the lowermost sedimentary unit in the 3,000 square kilometres (1,200 sq mi) Curitiba Basin, a Cenozoic continental rift basin of southeastern Brazil, overlying Cambrian basement comprising gneisses, amphibolites and migmatites of the Atuba Complex and metasediments of the Açungui Group. 8346b67cfc He earned a BS in civil engineering from Rensselaer Polytechnic Institute in 1958; an MS in civil engineering from California Institute of Technology in 1959; and a PhD in civil engineering from University of California, Berkeley, in 1966 under the guidance of H. Bolton Seed. 8346b67cfc == Tectonic setting == 8346b67cfc In 2016, Burland was elected as a member of the National Academy of Engineering for contributions to geotechnical engineering and the design, construction, and preservation of civil infrastructure and heritage buildings. 8346b67cfc == Early life and education == 8346b67cfc == History == 8346b67cfc == Early life and education == 8346b67cfc The 60 to 80 metres (200 to 260 ft) thick formation has provided several fossil mammals, and indeterminate side-neck turtle fossils, and indeterminate terror bird fossils. A newly described species of Cingulata; *Proeocoleophorus carlinii* was also found in the formation. 8346b67cfc == Major bridges == 8346b67cfc

Capitólio The municipality covers 521. Environment. 469 sq mi). 802 km² (201. 2–4. pp. Its population was 10,380 in the 2022 census and was estimated at 10,991 in 2025. Avaliações geotécnicas em atrativos geoturísticos [Geotechnical assessments at geotourism sites] Capitólio is a municipality in southwestern Minas Gerais, Brazil. 30 April 2024. Retrieved 4 August 2026. It belongs to the Immediate Geographic Region of Piumhi and the Intermediate Geographic Region of Varginha 8346b67cfc

Viña del Mar Often referred to as La Ciudad Jardín ("The Garden City"), the city is located on the central coast, on the basins of the Reñaca and Marga Marga streams and along the shores of Valparaíso Bay. San Celedonio, Franco (July 2017).

“Aportes para una nueva zonificación geotécnica de Viña del Mar: estimación de la profundidad del basamiento rocoso en Viña del Mar (Spanish pronunciation: ['bina ðel 'mar]; meaning "Vineyard of the Sea") is a city and commune on central Chile's Pacific coast

José Antonio Jiménez Salas and Serrano, A. Jiménez Salas, J. (1984) Condiciones geotécnicas del túnel bajo el estrecho de Gibraltar [Geotechnical Conditions of the José Antonio Jiménez Salas (10 March 1916 – 15 November 2000) was a Spanish professor of civil engineering and an elected academic of the Spanish Royal Academy of Sciences. A. y Naturales

Jiménez Salas was born in Zaragoza in 1916. He attended a Marist Brothers (Spanish: Congregación de los Hermanos Maristas) school in Zaragoza, before completing his initial education at IES San Isidro after his family moved to Madrid. After completing his high school studies, he studied at the School of Civil Engineering (Spanish: Escuela Técnica Superior de Ingenieros de Caminos, Canales y Puertos, ETSICCP) in Madrid. His studies were interrupted by the outbreak of the Spanish Civil War in which he fought after enlisting in Zaragoza in 1936. He returned to his studies after the war and graduated as a Civil Engineer in 1942, as the second-placed student in a class of eighteen. It was founded under its current name on 28 December 1874, by the Chilean politician and writer José Francisco Vergara, who, together with his wife Mercedes Alvares, inherited the lands where the city is now located. To this end, he decided to hire a group of engineers who laid out the street plans and formed an urban nucleus.

Izzat M. Idriss Idriss (born 1935) is a Syrian-American geotechnical engineer. His research on the geotechnical aspects of earthquake engineering has led to the development of many of the currently used procedures for evaluating the behavior of soil sites and soil structures during earthquakes, such as methods for evaluating: the characteristics of earthquake ground motions; seismic response of sites; potential for soil liquefaction; performance of embankment dams during earthquakes; and soil-structure interaction in response to earthquake shaking. Society for Geotechnical Engineering (Sociedad Mexicana de Ingeniería Geotécnica: SMIG) Recipient of the George W. Housner Medal from the Earthquake Engineering Izzat (Ed) M

The age is named after the Colhué Huapí Member of the Sarmiento Formation in the Golfo San Jorge Basin, Patagonia, Argentina. == Etymology == His MSc work led to the publication in of a landmark technical paper in Géotechnique, co-authored with his supervising professor Jeremiah Jennings. Burland's findings showed that the conventional approach of using effective stress to predict soil behaviour required adjustment for partly saturated conditions. The paper challenged the universality of the effective stress principle by demonstrating that its predictive accuracy... John

Burland was born in Buckinghamshire in 1936, but moved to South Africa as a child. He attended Parktown Boys' High School and then received a First Class Honours BSc degree in civil engineering from the University of the Witwatersrand in 1959, followed by an MSc. 8346b67cfc

The town grew from a nineteenth-century farming settlement called Arraial dos Franciscos. A chapel to Saint Sebastian was built after Pedro Messias da Cunha donated land to the community in 1895, and the settlement became São Sebastião dos Franciscos. Capitólio became a district in 1923 and a municipality in 1948. 8346b67cfc Between 1942 and 1943, he studied Applied Geology and Soil Mechanics at the Technical University of Munich and TU Wien on a scholarship, returning to Spain in 1943. After returning to Spain, he was assigned to the Spanish High Commissioner in Morocco until 1945, when he became Professor of Bridges, Structures and Geotechnics... 8346b67cfc Farms began to spread through the area then called Mata do Rio Piumhi during the early nineteenth century. Around 1830, the brothers João Francisco, Manoel Francisco, and Antônio Francisco settled near the site of the present town. Houses gathered around their properties, and the settlement became known as Arraial dos Franciscos. 8346b67cfc == Major bridges == 8346b67cfc
