Lutetium Lutetium is the last element in the lanthanide series, and it is traditionally counted among the rare earth elements; it can also be classified as the first element of the 6th-period transition metals. It is a silvery white metal, which resists corrosion in dry air, but not in moist air. Aqueous solutions of most lutetium salts are colorless and form white crystalline solids upon drying, with the common Lutetium is a chemical element; it has symbol Lu and atomic number 71. element in the +3 oxidation state e6f4a64b02
