Typography relationship. The term typography is also applied to the style, arrangement, and appearance of the letters, numbers, and symbols created by the process. Type design is a closely related craft, sometimes considered part of typography; most typographers do not design typefaces, and some type designers do not consider themselves typographers. Typography also may be used as an ornamental and decorative device, unrelated to the communication of information. The arrangement of type involves selecting typefaces, point sizes, line lengths, line spacing, letter spacing, and spaces between pairs of letters. In the nascent stages of European printing, the typeface (blackletter, or Gothic) was designed in imitation of the popular hand-lettering styles Typography is the art and technique of arranging type to make written language legible, readable and appealing when displayed 9a30fa3bf0
