

The Summer Of A Dormouse

European snow vole A study of the European snow vole concluded that it was a rock-dwelling The European snow vole or snow vole (*Chionomys nivalis*) is a species of rodent in the family Cricetidae. 5 in) long, with a tail which is 7 cm (2. 8 in) long. It has dense, pale grey fur and a pale-coloured tail and can reach about 14 cm (5. mammals as the edible dormouse (*Glis glis*) and the garden dormouse (*Eliomys quercinus*) d28ac3631e

European edible dormouse The common name comes from the Romans, who ate them as a delicacy. The European edible dormouse also known as the European dormouse or European fat dormouse (*Glis glis*) is a large dormouse and one of only two living species The European edible dormouse also known as the European dormouse or European fat dormouse (*Glis glis*) is a large dormouse and one of only two living species in the genus *Glis*, found in most of Europe and parts of western Asia d28ac3631e

There are six units of assessment. d28ac3631e

Midger boxes support the dormouse population. It lies east of Hillesley, Gloucestershire and north of Hawkesbury Upton, South Gloucestershire. Conservation work in the reserve includes coppicing of hazel, thinning of young ash, and clearing of invasive scrub Midger (grid reference ST797895) is a 65. It is at the head of the Kilcott Valley. Since the last revision in 1974, the size has been reduced to a 56-hectare (140-acre) site. 7-hectare (162-acre) biological Site of Special Scientific Interest straddling the border of Gloucestershire and South Gloucestershire, notified in 1966 and renotified in 1984 d28ac3631e

Alice in Wonderland (1981 film) as Cheshire Cat Malvina Shvidler as Caterpillar Lyudmila Ignatenko as The Dormouse Rostislav Plyatt as Narrator MacFadyen, David (20 May 2005). It originally aired on Ukrainian television in three parts. It was produced by Kievnauchfilm and directed by Yefrem Pruzhanskyy. Yellow Crocodiles Alice in Wonderland (Russian: «Алиса в Стране чудес», romanized: *Alisa v Strane chudes*) is a 1981 Soviet animated film based on Lewis Carroll's 1865 novel *Alice's Adventures in Wonderland* d28ac3631e

The story is told from the point of view of an elderly Alice (now the widowed Mrs. Hargreaves) as she travels to the United States from England to receive an honorary degree from Columbia University celebrating the centenary of Carroll's birth. It shares common themes with Potter's television play *Alice* (1965). The film evolves from the factual to the hallucinatory as Alice revisits her memories of the Reverend Charles Dodgson (Holm... d28ac3631e Part of the site (grid reference ST794892) is part owned (and managed) by the Gloucestershire Wildlife Trust. d28ac3631e

Dreamchild The film, starring Coral Browne, Ian Holm, Peter Gallagher, Nicola Cowper and Amelia Shankley, is a fictionalised account of Alice Liddell, the child who inspired Lewis Carroll's 1865 novel *Alice's Adventures in Wonderland*. He, the Mad Hatter, and the Dormouse, and the Caterpillar too, 'converse in the same matter of fact, egalitarian manner that the visiting Alice Dreamchild is a 1985 British drama film written by Dennis Potter, directed by Gavin Millar, and produced by Rick McCallum and Kenith Trodd. speaking d28ac3631e

The Tale of Ginger and Pickles in 1909. He died prior to the publication of the book, which was dedicated to him. Potter filled the tale with characters from her previous books. Ginger The Tale of Ginger and Pickles (originally, *Ginger and Pickles*) is a children's book written and illustrated by Beatrix Potter, and first published by Frederick Warne & Co. The book tells of two shopkeepers who extend unlimited credit to their customers and, as a result, are forced to go out of business. The book was eventually republished in the standard small format of the Peter Rabbit series and was adapted to drama in 1931. but she nevertheless included him in the story as a dormouse, at his request. It was originally published in a large format which permitted very detailed illustrations and also allowed Potter to include black-and-white vignettes d28ac3631e

When We Were Very Young It was first published in 1924, and it was illustrated by E. Several of the verses were set to music by Harold Fraser-Simson. H. The 38th poem in the book, "Teddy Bear", that originally appeared in *Punch* magazine in February 1924, was the first appearance of the famous character Winnie-the-Pooh, first named "Mr. Edward Bear" by Christopher Robin Milne. In one of the illustrations of "Teddy Bear", Winnie-the-Pooh is shown wearing a shirt which was later coloured red when reproduced on a recording produced by Stephen Slesinger. Milne. The book begins with an introduction entitled "Just Before We Begin", which, in part, tells readers to imagine for themselves who the narrator is, and that it might be Christopher Robin. Breakfast" "Hoppity" "At Home" "Summer Afternoon" "The Dormouse and the Doctor" "Shoes and Stockings" "Sand Between the Toes" "Knights and Ladies" "Little When We Were Very Young is a best-selling book of poetry by A. A. Shepard d28ac3631e

Garden dormouse The garden dormouse is gray or brown, with a whitish underside. The garden dormouse (*Eliomys quercinus*) is a species of dormouse native to Europe. It The garden dormouse (*Eliomys quercinus*) is a species of dormouse native to Europe d28ac3631e

Hazel dormouse The hazel dormouse or common dormouse (*Muscardinus avellanarius*) is a small dormouse species native to Europe and the only living species in the genus The hazel dormouse or

common dormouse (*Muscardinus avellanarius*) is a small dormouse species native to Europe and the only living species in the genus *Muscardinus* d28ac3631e

The European snow vole is native to mountainous parts of southern and eastern Europe and southwestern Asia. It is found in the Pyrenees, the Alps, the Apennine Mountains, the Carpathian Mountains, the Montesinho mountains, the higher regions of the Balkans and Asia Minor. Its habitat is rocky areas and screes, mostly above the tree line. It is mainly a solitary animal and lives under boulders and in crevices and tunnels among rocks and scree. d28ac3631e

Dormouse They are named for their long, dormant hibernation period of six months or longer. Dormice are nocturnal A dormouse is a rodent of the family Gliridae (this family is also variously called Myoxidae or Muscardinidae by different taxonomists). Dormice are nocturnal animals found in Africa, Asia, and Europe. There are 9 genera and 28 living species of dormice, with half of living species belonging to the African genus *Graphiurus*. A dormouse is a rodent of the family Gliridae (this family is also variously called Myoxidae or Muscardinidae by different taxonomists) d28ac3631e
