Everyday Paranormal is a paranormal investigation team whose stated mission is to "visit the most haunted places in America, find evidence, and test new theories to probe the existence of the afterlife" using a fringe-scientific approach. c2b2fa70b2

Television Infrared Observation Satellite 2005 at the Wayback Machine NASA Goddard POES Program POES Home NOAA Office of Satellite Operations - POES TIROS-1 50th Anniversary & Resources on Satellite - Television InfraRed Observation Satellite (TIROS) is a series of early weather satellites launched by the United States, beginning with TIROS-1 in 1960. TIROS is an acronym of "Television InfraRed Observation Satellite" and is also the plural of "tiro" which means "a young soldier, a beginner". TIROS was the first satellite that was capable of remote sensing of the Earth, enabling scientists to view the Earth from a new perspective: space. The program, promoted by Harry Wexler, proved the usefulness of satellite weather observation, at a time when military reconnaissance satellites were secretly in development or use. TIROS demonstrated at that time that "the key to genius is often simplicity" c2b2fa70b2

Les Paul built a custom 8-channel mixing console for him. Paul taught himself how to play guitar, and while he is mainly known for jazz and popular music, he had an early career in country music. He named the recorder "The Octopus" Lester William Polsfuss (June 9, 1915 – August 12, 2009), known as Les Paul, was an American jazz, country, and blues guitarist, songwriter, luthier, and inventor. He was one of the pioneers of the solid-body electric guitar, and his prototype, called the Log, served as inspiration for the Gibson Les Paul. In the 1950s, he and his wife, singer and guitarist Mary Ford, made numerous recordings, selling millions of copies. The mixing board included in-line equalization and vibrato effects c2b2fa70b2

Closed-circuit television These devices are responsible for the recording, storage, video stream Closed-circuit television (CCTV), also known as video surveillance, is the use of closed-circuit television cameras to transmit a signal to a specific place on a limited set of monitors. Industrial video surveillance systems use network video recorders to support IP cameras. It differs from broadcast television in that the signal is not openly transmitted, though it may employ point-to-point, point-to-multipoint (P2MP), or mesh wired or wireless links. Even though almost all video cameras fit this definition, the term is most often applied to those used for surveillance in areas that require additional security or ongoing monitoring (videotelephony is seldom called "CCTV") c2b2fa70b2

List of 2017 Women's March locations WHNT. Retrieved January 24, 2017. "Why we march". weekend in support of women's equality". Poe, Katie (January 23, 2017). Other noted causes included, but were not limited to: immigration reform, climate science, and health care reform, countering religious discrimination, violence against women, LGBTQ abuse, addressing racial inequities. The date of this global protest is particularly significant because it was the first day of President Donald J. In addition, the protest was largely in response the positions of the new presidency and the results of the 2016 presidential election. The march was also about promoting women's rights. Times-Journal. These "sister marches" were both formally and organically related to the popularized 2017 Women's March, all of which happened in concert. Retrieved January The 2017 Women's March was a network of global political rallies that took place in cities around the world on January 21, 2017. Trump's term c2b2fa70b2

Messages in bottles have been used to send distress messages; in crowdsourced scientific studies of ocean currents; as memorial tributes; to send deceased loved ones' ashes on a final journey; to convey expedition reports; and to carry letters or reports from those believing themselves to be doomed. Invitations to prospective pen pals and letters to actual or imagined love interests have also been sent as messages in bottles. c2b2fa70b2 Use of the term "message in a bottle" has expanded to include... c2b2fa70b2 The lore surrounding messages in bottles has often been of a romantic or poetic nature. c2b2fa70b2

Talking bird than just repeating phrases. In the narrative poem The Raven by Edgar Allan Poe the titular bird famously recites the word "Nevermore" throughout. Wild cockatoos in Australia have been reported to have learned human speech by cultural transmission from ex-captive birds that have

integrated into the flock. Charles Talking birds are birds that can mimic the speech of humans. Birds have varying degrees of talking ability: some, like the corvids, are able to mimic only a few words and phrases, while some budgerigars have been observed to have a vocabulary of almost 2,000 words. There is debate within the scientific community over whether some talking parrots also have some cognitive understanding of the language. The common hill myna, a common pet, is well known for its talking ability and its relative, the common starling, is also adept at mimicry c2b2fa70b2

Ghost Lab Produced by Paper Route Productions and Go Go Luckey Entertainment, the program is narrated by Mike Rowe. Retrieved August 9, 2010. Discovery Channel. "Ghost Lab". March 25, 2010. "Paranormal: Ghost Lab is a weekly American paranormal television series that premiered on October 6, 2009, on the Discovery Channel. Archived from the original on December 20, 2021. It follows ghost-hunting brothers Brad and Barry Klinge, who founded Everyday Paranormal (EP) in October 2007. DiscoveryNetworks c2b2fa70b2

History of telecommunication This article details the history of telecommunication and the individuals who helped make telecommunication systems what they are today. A History of Communications: Media and Society From the Evolution The history of telecommunication began with the use of smoke signals and drums in Africa, Asia, and the Americas. The history of telecommunication is an important part of the larger history of communication. In the 1790s, the first fixed semaphore systems emerged in Europe. However, it was not until the 1830s that electrical telecommunication systems started to appear. telephone Noll, Michael.
