History of the steel industry (1850–1970) Blair (1997) explores the history of the British Steel Before 1800 A. Since then, steel has become a staple of the world's industrial economy. , the iron and steel industry was located where raw material, power supply and running water were easily available. This article is intended only to address the business, economic and social dimensions of the industry, since the bulk production of steel began as a result of Henry Bessemer's development of the Bessemer converter, in 1857. After 1950, the iron and steel industry began to be located on large areas of flat land near sea ports. the firm—and the British steel industry—suffered from a failure of entrepreneurship and planning. The history of the modern steel industry began in the late 1850s. D. Previously, steel was very expensive to produce, and was only used in small, expensive items, such as knives, swords and armor

Business may hire employees. ". It is also "any activity or enterprise entered into for profit. A sole proprietor has unlimited liability for all obligations incurred by the business, whether from operating costs or judgments against Business is the practice of making one's living or making money by producing or buying and selling products (such as goods and services)
