"Quasistatic process", 4a820b0823

List of topics characterized as pseudoscience Detailed discussion
of these topics may be found on their main pages. (violating the
first law of thermodynamics) or extract useful work from
equilibrium systems (violating the second law of
thermodynamics). These characterizations were made in the
context of educating the public about questionable or potentially
fraudulent or dangerous claims and practices, efforts to define the
nature of science, or humorous parodies of poor scientific
reasoning. Water-fueled cars - This is a list of topics that have
been characterized as pseudoscience by academics or researchers
