Sheep, goats, pigs, and cattle were domesticated around 10,000 years ago. Agriculture was a key factor in the rise of sedentary human civilization, whereby farming of domesticated plants and animals created food surpluses that enabled people to live in the

cities. While humans started gathering grains at least 105,000 years ago, nascent farmers only began planting them around 11,500 years ago. Plants were independently cultivated in at least 11 regions of the world c969842208
