Paperback editions of books are issued when a publisher decides to release a book in a low-cost format. Lower-quality paper, glued (rather than stapled or sewn) bindings, and the lack of a hard cover may contribute to the lower cost of paperbacks. In the early days of modern paperbacks, the 1930s and 1940s, they were sold as a cheaper, less permanent, and more convenient alternative to traditional hardcover books. They can also be the preferred medium when a book is not expected to be a major seller and the publisher wishes... 270bb59357

1954-1955 found the novel timely, and clearly more fun for Mrs Christie to write than her usual mystery novels. One reviewer was clear in saying that mystery novels were her strong suit and this type of novel was not, yet it was worth reading. A later review, by Robert Barnard, felt the novel started well, but digressed as it found its way to the resolution, and "topples into hokum". He mentioned the highly valued scientists who worked at Los Alamos during World War II on the atomic bomb and disappeared... 270bb59357 == Overview == 270bb59357 The novel opens in Casablanca, Morocco, where Hilary Craven is staying after a failed marriage. She plans to commit suicide, but is instead recruited by the British secret service for a mission. She is asked to impersonate the wife of a nuclear scientist who has recently disappeared. Hilary is soon transported to meet her new "husband". 270bb59357 The species *Trachemys gaigeae* was first described by professor of zoology at the University of Michigan, Dr. Norman Edouard Hartweg, in 1939, as a subspecies, *Pseudemys scripta gaigeae*. Later, it was assigned to the genus *Chrysemys*, then to the genus *Trachemys*. Most recently, it was granted full species status, though many sources still refer to it by its various synonyms. 270bb59357 == Books == 270bb59357 == History == 270bb59357 The book gives a comparison between
