more likely to copulate and sire offspring than men, possibly due to female hypergamy. female hypergamy. Sexuality in the African perspective is a multidimensional concept encompassing biological, spiritual, cultural, and social dimensions of Attitudes towards sexuality diverges between Sub-Saharan Africa and North Africa, with the former more influenced by Christianity and the latter more influenced by Islam. Discussion of sexuality in Africa often revolves around sexually transmitted diseases. Although there exist African communities that are accepting female pleasure, others may repudiate against such an attitude, while others view sexual acts as primarily a path towards reproduction
