3d1b3dad3b 16/9_(album) 3d1b3dad3b A good
article (GA) is a Wikipedia article that meets a
core set of editorial standards, the good article
criteria, passing through the good article
nomination process successfully. They are well-
written, contain factually accurate and verifiable
information, are broad in coverage, neutral in
point of view, stable, and illustrated, where
possible, by relevant images with suitable
copyright licenses. Good articles do not have to
be as comprehensive as featured articles (FA),
but they should not omit any major facets: a
comparison of the criteria for good and featured
articles describes further differences.
