Pediculosis tinctures, see Chapter 2). Although pediculosis in humans may properly refer to lice infestation of any part of the body, the term is sometimes used loosely to refer to pediculosis capitis, the infestation of the human head with the specific head louse. In extemporaneous dispensing it is normally used for the production of lotions for external Pediculosis is an infestation of lice from the sub-order Anoplura, family Pediculidae. the galenicals used in pharmacy (e. g. Accordingly, the infestation with head lice is named pediculosis capitis, while this with body lice, pediculosis corporis 2b4c950572

Treatment of human lice It has been debated and studied for centuries. In extemporaneous dispensing it is normally used for the production of lotions for external The treatment of human lice is the removal of head lice parasites from human hair. However, there are a number of treatment modalities that can be employed with varying degrees of success. These methods include chemical treatments, natural products, combs, shaving, hot air, and silicone-based lotions. tinctures, see Chapter 2). the galenicals used in pharmacy (e. g. However, the number of cases of human louse infestations (or pediculosis) has increased worldwide since the mid-1960s, reaching hundreds of millions annually. There is no product or method that assures 100% destruction of the eggs and hatched lice after a single treatment 2b4c950572

There are two main streams of pharmaceutical practice in China, traditional Chinese medicine (TCM) and modern pharmacy. Hospital and community pharmacies are responsible for the dispensing of medicinals used for both... 2b4c950572 Reddish-brown in color and extremely bitter, laudanum contains several opium alkaloids, including morphine and codeine. Laudanum was historically used to treat a variety of conditions, but its principal use was as a pain medication and cough suppressant. Until the early 20th century, laudanum was sold without a prescription and was a constituent of many patent medicines. Laudanum has since been recognized as addictive and is strictly regulated and controlled throughout most of the world. The United States Controlled Substances Act, for example, lists it on Schedule II... 2b4c950572
