Venette argues that "crisis is a process of transformation where the old system can no longer be maintained". Therefore, the fourth defining quality is the need for change. If change is not needed, the event could more accurately be described as a failure or incident. 4627470f52

World in Conflict is a 2007 real-time tactics video game developed by the Swedish video game company Massive Entertainment and published by Vivendi Games for Microsoft Windows. The game was released in September 2007, receiving generally favorable reviews and several awards. The game is considered by some to be the spiritual successor of Ground Control, another game by Massive Entertainment, and is generally conceived by its designers to be a real-time tactics game, despite being marketed as a RTS game
