The 304 was introduced to the public at the Paris Motor Show in September 1969. Production of the saloon/sedan on the Sochaux assembly lines was discontinued during the summer of 1979, while the "Break" (estate / station wagon) was manufactured until the spring of 1980. The 304 fit into the 7CV tax category, one step above its little sister the 204 (6CV) and significantly below the 9CV 404. All three models were facelifted in March 2004 before being replaced by new, second-generation models in 2007. The redesigned models again shared the same design and engineering, with subtle trim changes between each brand. The second generation received a small facelift in February 2012 and from July 2013, Toyota began sales of a rebadged version called the Toyota Proace. The 204, known in development as Project D12, was available in many body styles including a sedan/saloon/berline, convertible/cabriolet, hatchback/coupe, estate/wagon, and a van. It was launched in Paris, France, on 23 April 1965 and became the best-selling car in France from 1969 to 1971.
