Pigeon pea Bibcode:2006EuJSS. European Journal of Soil Science. *Rhizobium* on nodulation and nitrogen fixation by pigeonpea (*Cajanus cajan*) "67T The pigeon pea (*Cajanus cajan*) or toor dal is a perennial legume from the family Fabaceae native to the Eastern Hemisphere. The pigeon pea is widely cultivated in tropical and semitropical regions around the world, being commonly consumed in South Asia, Southeast Asia, Africa, Latin America and the Caribbean. 57 (1): 67–71. 57 ef33d0da07

Pesticide poisoning (January 2004). doi:10. PMID 18666136. S2CID 9020012. The third type of poisoning is a long-term low-level exposure, which individuals are exposed to from sources such as pesticide residues in food as well as contact with pesticide residues in the air, water, soil, sediment, food materials, plants and animals. Calvert GM, Plate DK, Das R, Rosales R, Shafey O, Thomsen C, et al. 1002/ajim. 20623. "Acute occupational A pesticide poisoning occurs when pesticides, chemicals intended to control a pest, affect non-target organisms such as humans, wildlife, plants, or bees. The first of the three is a single and short-term very high level of exposure which can be experienced by individuals who die by suicide, as well as pesticide formulators. The second type of poisoning is long-term high-level exposure, which can occur in pesticide formulators and manufacturers.

There are three types of pesticide poisoning ef33d0da07

Novalis was born into a minor aristocratic family in Electoral Saxony. He was the second of eleven children; his early household observed a strict Pietist faith. He studied law at the University of Jena, the University of Leipzig, and the University of Wittenberg. While at Jena, he published his first poem and befriended the playwright and fellow poet Friedrich Schiller. In Leipzig, he then met Friedrich Schlegel, becoming lifelong friends. Novalis completed his law degree in 1794 at the age of 22. He then worked as a legal assistant... ef33d0da07

Nelumbo nucifera 'Lotus') or Kamala (Sanskrit: कमल, lit. It is sometimes colloquially called a water lily, though this more often refers to members of the family Nymphaeaceae. flooded soils, requiring warm temperatures and specific planting depths, with propagation via rhizomes, seeds, or tissue culture, and is harvested by hand Nelumbo nucifera, also known as Padma (Sanskrit: पद्म, romanized: Padmā, lit. The lotus belongs in the order Proteales. 'Lotus'), sacred lotus, pink lotus, Indian lotus, or simply lotus, is one of two extant species of aquatic plant in the family Nelumbonaceae ef33d0da07

Bacteria 20516. In the biological communities surrounding hydrothermal vents and cold seeps, extremophile bacteria. : bacterium) are ubiquitous, mostly free-living organisms often consisting of one biological cell. PMID 17187354. Science. Bacteria inhabit the air, soil, water, acidic hot springs, radioactive waste, and the deep biosphere of Earth's crust. 1002/bies. "Ancient invasions: from endosymbionts to organelles". The nutrient cycle includes the decomposition of dead bodies; bacteria are responsible for the putrefaction stage in this process. Typically a few micrometres in length, bacteria were among the first life forms to appear on Earth, and are present in most of its habitats. They constitute a large domain of prokaryotic microorganisms. doi:10. 304 (5668): Bacteria (; sg. Bacteria play a vital role in many stages of the nutrient cycle by recycling nutrients and the fixation of nitrogen from the atmosphere. Dyal SD, Brown MT, Johnson PJ (April 2004) ef33d0da07

Marine microorganisms Annual Review of Marine Science. PMID 30210473. Many macroscopic animals and plants have microscopic juvenile stages. ; Hansen, P. Bibcode:2017ARMS Marine microorganisms are defined by their habitat as microorganisms living in a marine environment, that is, in the saltwater of a sea or ocean or the brackish water of a coastal estuary. Stoecker, D. K. They can be single-celled or multicellular

and include bacteria, archaea, viruses, and most protozoa, as well as some fungi, algae, and animals, such as rotifers and copepods. "Mixotrophy in the marine plankton". A microorganism (or microbe) is any microscopic living organism or virus, which is invisibly small to the unaided human eye without magnification. J. A. 9: 311–335. ; Caron, D. Microorganisms are very diverse. (2017). Some microbiologists also classify viruses as microorganisms, but others consider these as non-living. ; Mitra, A ef33d0da07

Marine microorganisms have been variously estimated to make up between 70 and 90 percent... ef33d0da07 Lotus plants are adapted to grow in the flood plains of slow-moving rivers and delta areas. Stands of lotus drop hundreds of thousands of seeds every year to the bottom of the pond. While some sprout immediately and most are eaten by wildlife, the remaining seeds can remain dormant for an extensive period of time as the pond silts in and dries out. During flood conditions, sediments... ef33d0da07

Karnataka It was formed as Mysore State on 1 November 1956, with the passage of the States Reorganisation Act, and renamed Karnataka in 1973. Science, Technology, Imperialism and War. The state is bordered by the Lakshadweep Sea to the west, Goa to the northwest, Maharashtra to the north, Telangana to the northeast, Andhra Pradesh to the east, Tamil Nadu to the southeast, and Kerala to the southwest. With 15,257,000 residents, the state capital Bengaluru is the largest city of Karnataka. With 61,130,704 inhabitants at the 2011 census, Karnataka is the eighth-largest state by population, comprising 31 districts. (2007). History of Science, Philosophy and Culture in Indian Civilization Karnataka is a state in the southwestern region of India. Gupta, Jyoti Bhusan Das, ed. December 2021 ef33d0da07

The son of a successful businessman and chemist, Jünger rebelled against an affluent upbringing and sought adventure in the Wandervogel German youth movement, before running away to briefly serve in the French Foreign Legion, which was an illegal act in Germany. However, he escaped prosecution due to his father's efforts and was able to enlist in the German Army on the outbreak of World War I in 1914. During an ill-fated offensive in... ef33d0da07

List of people considered father or mother of a scientific field , international ed. Explorers: Tales of Endurance and Exploration. Debate over who merits the title can be perennial. DK Publishing (2010). Talaro, 6th ed. Such people are generally regarded to have made the first significant contributions to and/or delineation

of that field; they may also be seen as "a" rather than "the" father or mother of the field. , McGraw-Hill, 2007, ISBN 978-0-07-126232-3. Penguin The following is a list of people who are considered a "father" or "mother" (or "founding father" or "founding mother") of a scientific field ef33d0da07

The economy of Karnataka is among the most productive in the country with a gross state domestic product (GSDP) of ₹25.01 trillion (US\$300 billion) and a per capita GSDP of ₹332... ef33d0da07 By far the most widespread of all Nepenthes, its range covers continental Southeast Asia and all major islands of the Malay Archipelago (minus the Lesser Sunda Islands and northern Philippines), stretching from China in the north to Australia in the south. The species exhibits great variability throughout its range. One of the more notable varieties, *N. mirabilis* var. *echinostoma*, is endemic to Borneo and possesses an extremely wide peristome. ef33d0da07

Novalis Wood, David W. (2007). read and responded to Fichte's The Science of Knowledge. , ed. Novalis: Notes for a Romantic Encyclopaedia (Das Allgemeine Brouillon) Georg Philipp Friedrich Freiherr von Hardenberg (2 May 1772 – 25 March 1801), pen name Novalis (; German: [noˈvaːlɪs]), was a German aristocrat and polymath, who was a poet, novelist, philosopher and mystic. He is regarded as an influential figure of Jena Romanticism ef33d0da07

Nepenthes mirabilis Yeates, D. , H. Italian Carnivorous Plants Association. *N. mirabilis* (; from Latin *mirabilis* "wonderful") is a species of carnivorous plant in the family *Nepenthaceae*. Archived from the original (PDF) on 2012-03-30. 2 (22). AIPC Magazine. It is sometimes referred to by the common names common swamp pitcher-plant and tropical pitcher plant,. Carnivorous Plants" (PDF) ef33d0da07
