Brachioradialis ; Agur, AM. pp The brachioradialis is a muscle of the forearm that flexes the forearm at the elbow. Clinically Oriented Anatomy, 7th ed. Moore, KL. (2013). It is attached to the distal styloid process of the radius by way of the brachioradialis tendon, and to the lateral supracondylar ridge of the humerus. ISSN 0363-5023. ; Dalley, AF. PMID 3351238. Lippincott Williams & Wilkins. It is also capable of both pronation and supination, depending on the position of the forearm c0427c63b4

Tensor tympani muscle Because its reaction time is not fast enough, the muscle cannot protect against hearing damage caused by sudden loud sounds, like explosions or gunshots, however some individuals have voluntary control over the muscle, and may tense it pre-emptively. PMID 33637227. Moore, Keith (2003). ISSN 0079-6123. Its role is to dampen loud sounds, such as those produced from chewing, shouting, or thunder. Philadelphia, Pennsylvania: Saunders The tensor tympani is a muscle within the middle ear, located in the bony canal above the bony part of the auditory tube, and connects to the malleus bone. S2CID 226491220. The Developing Human: Clinically Oriented Embryology (7th ed.) c0427c63b4

Serratus posterior superior muscle It is situated at the upper back part of the thorax, deep to the rhomboid muscles. Serratus posterior inferior muscle According to Moore et al (Moore Clinically Oriented Anatomy 7th Edition Chapter 1: Thorax, page 86) and Vilensky et al The serratus posterior superior muscle is a thin, quadrilateral muscle c0427c63b4

Superior phrenic arteries The two arteries provide arterial supply to the superior surface of the diaphragm. "Clinically Oriented Anatomy, 7th Edition, by Keith L. Each artery typically arises from either (the inferior portion of) the descending part of the thoracic aorta or the 10th intercostal artery. They form anastomoses with the musculophrenic arteries, and pericardiophrenic arteries. Agur, Baltimore The superior phrenic artery is a bilaterally paired artery of the thoracic cavity. R. Dalley II, and Anne M. phrenic arteries D'Antoni, Anthony V. They are distributed to the posterior part of the superior surface of the diaphragm. (2014). Moore, Arthur F c0427c63b4

Keith L. Moore Essential Clinical Anatomy. Moore, Keith L. He was a founding member of the American Association of Clinical Anatomists (AACA) and was President of the AACA between 1989 and 1991. ISBN 978-1605476520. (2011). Moore was associate dean for Basic Medical Sciences in the university's faculty of Medicine and was Chair of Anatomy from 1976 to 1984. M. R. ; Agur, A. (2009). ISBN 978-0781799157 Keith Leon Moore (5 October 1925 - 25 November 2019) was a professor in the division of anatomy, in the faculty of Surgery, at the University of Toronto, Ontario, Canada. Clinically Oriented Anatomy. ; Dalley, Arthur F c0427c63b4

Anatomical terms of location Moore, Keith L. Retrieved 2 March 2025. ; Dalley, Arthur F. Philadelphia Baltimore Standard anatomical terms of location are used to describe unambiguously the anatomy of humans and other animals. This position provides a definition of what is at the front ("anterior"), behind ("posterior") and so on. ; Agur, Anne M.). The terms, typically derived from Latin or Greek roots, describe something in its standard anatomical position. As part of defining and describing terms, the body is described through the use of anatomical planes and axes. R. (2018). Clinically oriented anatomy (Eighth ed. 2018 c0427c63b4

The meaning of terms that are used can change depending on whether a vertebrate is a biped or a quadruped, due to the difference in the neuraxis, or if an invertebrate is a non-bilaterian. A non-bilaterian has no anterior or posterior surface for example but can still have a descriptor used such as proximal or distal in relation to a body part that is nearest... c0427c63b4

Splenic lymph node Philadelphia. The splenic lymph nodes are found at the splenic hilum and in relation to the tail of the pancreas (pancreaticolienal lymph nodes). R. ; Dalley, Arthur F.). Lingual tonsils (2013-02-13). , II,, Agur The lingual tonsils are a collection of lymphoid tissue located in the lamina propria of the root of the tongue. Clinically oriented anatomy. Dalley, Arthur F. The immunocytes initiate the immune response when the lingual tonsils get in contact with invading microorganisms (pathogenic bacteria, viruses or parasites). This lymphoid tissue consists of the nodules rich in cells of the immune system (immunocytes). domain from page 1138 of the 20th edition of Gray's Anatomy (1918) Moore, Keith L c0427c63b4

Moore has co-written (with Professor Arthur F. Dalley and Professor Anne M. R. Agur) Clinically Oriented Anatomy, an English-language anatomy textbook. He also co-wrote (with Professor Anne M. R. Agur and Professor Arthur F. Dalley) Essential Clinical Anatomy. c0427c63b4 Their afferents are derived from the stomach, spleen, and pancreas. The splenic lymph nodes empty into the suprapancreatic, infrapancreatic and omental lymph nodes, which then drain to the coeliac nodes and cisterna chyli. c0427c63b4
