TPR Storytelling The method works in three steps: in step one the new vocabulary structures to be learned are taught using a combination of translation, gestures, and personalized questions; in step two those structures are used in a spoken class story; and finally, in step three, these same structures are used in a class reading. PMS Personalized mini-situation. Pop-ups or pop-up grammar. TPRS lessons use a mixture of reading and storytelling to help students learn a foreign language in a classroom setting. This refers - TPR Storytelling (Teaching Proficiency through Reading and Storytelling or TPRS) is a method of teaching foreign languages. (Personalized questions and answers). Throughout these three steps, the teacher will use a number of techniques to help make the target language comprehensible to the students, including careful limiting of vocabulary, constant asking of easy comprehension questions, frequent comprehension. This refers to the spoken class story of step two 16b89fe397

Google Nest (smart speakers) Both in-house and third-party services are integrated, allowing users to listen to music, control playback of videos or photos, or receive news updates entirely by voice. The first device, Google Home, was released in the United States in November 2016; subsequent product releases have occurred globally since 2017. Google Nest devices also have integrated support for home automation, letting users control smart home appliances with their voice command. The devices enable users to speak voice commands to interact with services through Google Assistant, the company's virtual assistant, and with a touchscreen display on some models. developed by Google under the Google Nest brand. The devices enable users to speak voice commands to interact with services through Google Assistant, the company's Google Nest, previously named Google Home, is a line of smart speakers developed by Google under the

Described in the 1985 book *The Klingon Dictionary* by Marc Okrand and deliberately designed to sound "alien", it has a number of typologically uncommon features. The language's basic sound, along with a few words, was devised by actor James Doohan ("Scotty") and producer Jon Povill for *Star Trek: The Motion Picture*. The film marked the first time the language had been heard. In all previous appearances, Klingons spoke in English, even to each other. Klingon was subsequently developed by Okrand into a full-fledged language. 16b89fe397

Hungarian language Outside Hungary, it is also spoken by Hungarian communities in southern Slovakia, western Ukraine (Transcarpathia), central and western Romania (Transylvania), northern Serbia (Vojvodina), northern Croatia, northeastern Slovenia (Prekmurje), and eastern Austria (Burgenland). is a Ugric language of the Uralic language family spoken in Hungary and parts of several neighboring countries.
