The history of Infant Jesus Cathedral dates back to 1503 when Tangasseri came under the control of the Portuguese. The Portuguese who came to Quilon in 1503 led by Afonso de Albuquerque made Tangasseri a well fortified city by building a fort, which was called Fortaleza da São Tomé (known as St. Thomas Fort). Saint Francis Xavier established a church, a college (São Salvador College), a printing press (São Salvador seminary Press), and a religious study centre at Tangasseri during his visits in 1544 and 1549. In 1614, the Portuguese established the Infant Jesus church in its present location. According to Benchmark Capital co-founder Andy Rachleff, Sequoia Capital founder Don Valentine developed the thinking behind product-market fit, but it was Andy who first put a name to it. Venture capitalist Marc Andreessen of Andreessen Horowitz later popularized the term in the mid-2000s. Andreessen credits Rachleff for the concept, referring to the idea as Rachleff's Corollary of Startup Success: "The only thing that matters is getting to product/market fit." He founded and was the CEO of Vergence Labs, a manufacturer of wearable computer enabled video streaming glasses under the brand name Epiphany Eyewear as well as augmented reality (AR) and virtual reality (VR) eyewear. The process assumes that early ventures have untested hypotheses about their business model (who are the customers, what features they want, what channel to use, revenue strategy/pricing tactics, how to get/keep/grow customers, strategic activities needed to deliver the product, internal resources needed, partners needed and costs). Customer development starts with the key idea that there are no facts inside your building so get outside to test them. The hypotheses testing emulates the scientific method – pose a business model hypothesis, design an experiment, get out of the building and test it. Take the data and derive some insight to either (1) Validate the hypothesis, (2) Invalidate the Hypothesis, or (3) Modify the hypothesis.

Bach composed the cantata in his third year as Thomaskantor, setting a libretto which Georg Christian Lehms, a court poet in

Darmstadt, had already published in 1711. Lehms based his text on one idea from the prescribed gospel, Jesus saying: "Mine hour is not yet come". The text is divided into two groups of three movements each, both concluded with a chorale. The first group features first an aria, then a recitative, the second first a recitative, then an aria. The third movement is the second stanza of Johann Heermann's hymn "Zion klagt mit Angst und Schmerzen", the closing chorale is the final stanza of Paul Fleming's "In allen meinen Taten". 508df9983d Chichilaki is currently proposed by the President of Georgia to be inscribed on the UNESCO Representative List of the Intangible Cultural Heritage of Humanity. 508df9983d Steve Blank referred to the concept of product-market fit as a step in between customer... 508df9983d

In the style of the cycle, an unknown poet retained the outer stanzas for framing choral movements and paraphrased the inner stanzas into four movements for soloists, alternating arias and recitatives. Bach scored the work for four vocal soloists, a four-part choir and a Baroque instrumental ensemble of two oboes, strings and basso continuo. 508df9983d For Christian denominations such as the Evangelical-Lutheran Churches and Anglican Communion, the Twelve Days are identical to Christmastide (25 December through to 5 January), and this is followed by the season of Epiphanytide, which begins on 6 January. For the Catholic Church, however, Christmastide lasts longer, until the Feast of the Baptism of the Lord. For some, the Twelve Days are considered 26 December to 6 January, thus including Epiphany. 508df9983d No membership statistics were reported in 2024 national parochial reports.
