Instructional simulation A widely used format for designing online learning environments is WebQuest. Instructional simulations are typically goal oriented and focus learners on specific facts, concepts, or applications of the system or environment. an initiator of the learning process. However, there are today on the market An instructional simulation, also called an educational simulation, is a simulation of some type of reality (system or environment) but which also includes instructional elements that help a learner explore, navigate or obtain more information about that system or environment that cannot generally be acquired

from mere experimentation 9d02b89c0f
