The Corvette has had domestic mass-produced two-seater competitors fielded by American Motors, Ford, and Chrysler; it is the only one continuously produced by a United States auto manufacturer. It serves as Chevrolet's halo car. Throughout eight generations, indicated sequentially as C1 to C8, the Corvette is noted for its performance, distinctive styling, lightweight fiberglass or composite bodywork, and competitive pricing

In 1953, GM executives accepted a suggestion by Myron Scott, then the assistant director of the Public Relations department, to name the company's new sports car after the corvette, a small, maneuverable warship... In order to eliminate the chances of hitting bottom with an outboard motor, the motor can be tilted up to an elevated position either electronically or manually. Chrysler Newport three-speed manual transmission. In 1961, Chrysler introduced the Newport as a new, low-priced model, offering large, comfortable two- and four-door Chrysler models that were modestly priced compared with the Chrysler 300, the Chrysler New Yorker and the Imperial. The Newport was based upon the Chrysler Imperial Crown chassis and engine, and was designed by LeBaron / Briggs Manufacturing The Newport was a name used by Chrysler for both a hardtop body designation and also for its lowest priced model between 1961 and 1981. Chrysler first used the Newport name on a 1940 show car, of which five vehicles were produced. From 1950 to 1956, the Newport name was then used to designate any Chrysler model with a hardtop body style (for example, the 1956 Chrysler "New Yorker 2 Door Newport"). For 1961, the Newport was priced below the Chrysler Windsor (which originally replaced the Chrysler Royal) in the Windsor's final year
