a55df8bef3 Scope of the subproject:
a55df8bef3 The main symptoms of COPD include shortness of breath and a cough, which may or may not produce mucus. COPD progressively worsens, with everyday activities such as walking or dressing becoming difficult. While COPD is incurable, it is preventable and treatable. The two most common types of COPD are emphysema and chronic bronchitis, and...

Chronic obstructive pulmonary disease ISBN 978-0-323-52371-4. GOLD defines COPD as a heterogeneous lung condition characterized by chronic respiratory symptoms (shortness of breath, cough, sputum production or exacerbations) due to abnormalities of the airways (bronchitis, bronchiolitis) or alveoli (emphysema) that cause persistent, often progressive, airflow obstruction. 00009-X. Delaunois L (October 1989). The European Respiratory Journal Chronic obstructive pulmonary disease (COPD) is a type of progressive lung disease characterized by chronic respiratory symptoms and airflow limitation. "Anatomy and physiology of collateral respiratory pathways"

Neuron Neurons communicate with other cells via synapses, which are specialized connections that commonly use minute amounts of chemical neurotransmitters to pass the electric signal from the presynaptic neuron to the target cell through the synaptic gap. 0040029. p.

ISBN 978-971-23-4807-5 A neuron (American English), neurone (British English), or nerve cell, is an excitable cell that fires electric signals called action potentials across a neural network in the nervous system. They are located in the nervous system and help to receive and conduct impulses. 288. Anatomy and Physiology; 2007 Ed.

PMID 16366735. Rex Bookstore, Inc. Al, Martini, Frederic Et (2005). 2007 Edition. PMC 1318477 a55df8bef3

Italians Nobel Prize in Physiology or Medicine); Angelo Ruffini first described the Ruffini endings and was known for his work in histology and embryology; Filippo Italians (Italian: italiani, pronounced [ita'lja:ni]) are a European ethnic group native to the Italian geographical region. Their predecessors differ regionally, but

generally include populations such as the Etruscans, Rhaetians, Ligurians, Adriatic Veneti, Ancient Greeks and Italic peoples, including Latins, from which Romans emerged and helped create and evolve the modern Italian identity. Legally, Italian nationals are citizens of Italy, regardless of ancestry or nation of residence (in effect, however, Italian nationality is largely based on *jus sanguinis*) and may be distinguished from ethnic Italians in general or from people of Italian descent without Italian citizenship and ethnic Italians living in territories adjacent. Italians share a common culture, history, ancestry and language

Amphenone B incompatibility (help)
Deane HW (27 November 2013).
"The anatomy, chemistry, and physiology of adrenocortical tissue, Inhibitors of adrenocortical function" Amphenone B, or simply amphenone, also known as 3,3-bis(p-aminophenyl)butan-2-one, is an inhibitor

of steroid hormone and thyroid hormone biosynthesis which was never marketed but has been used as a tool in scientific research to study corticosteroids and the adrenal glands. It acts as competitive inhibitor of 11β -hydroxylase, 17α -hydroxylase, $17,20$ -lyase, 21 -hydroxylase, and 3β -hydroxysteroid dehydrogenase, as well as of cholesterol side-chain cleavage enzyme, thereby inhibiting the production of steroid hormones including glucocorticoids, mineralocorticoids, androgens, and estrogens. In addition, amphenone B inhibits the production of thyroxine by a thiouracil-like mechanism, specifically via inhibition of organic binding of iodine and uptake of iodide by the thyroid gland

Drug abuse retinopathy PMC 6886135. Martini F, Nath J, Bartholomew E (2014). Fundamentals of Anatomy and Physiology Global Edition (10th ed. Common symptoms include temporary and permanent vision loss, blurred vision, and night blindness. Pearson Education, Drug abuse retinopathy is damage to the retina of the eyes caused by chronic drug abuse. Types of retinopathy caused by drug abuse include maculopathy, Saturday night retinopathy, and talc retinopathy. PMID 31719293.). Substances commonly associated with this condition include poppers, heroin, cocaine, methamphetamine, tobacco, and alcohol a55df8bef3

Generalized anxiety disorder
"Generalized Anxiety Disorder". Retrieved 30 May 2019. Disorder: When Worry Gets Out of Control". Symptoms may include

excessive worry, restlessness, trouble sleeping, exhaustion, irritability, sweating, and trembling. NIMH. DeMartini J, Patel G, Fancher TL (2 April 2019). Individuals with GAD are often overly concerned about everyday matters such as health, finances, death, family, relationship concerns, or work difficulties. Generalized anxiety disorder (GAD) is an anxiety disorder characterized by excessive, uncontrollable, and often irrational worry about events or activities. Worry often interferes with daily functioning a55df8bef3

Growth hormone Fundamentals of anatomy & physiology. It is a type of mitogen which is specific only to the receptors on certain types of cells. Upper Saddle River, NJ: Pearson Education Growth hormone (GH) or somatotropin, also known as human growth hormone (hGH or HGH) in its human form, is a peptide hormone that stimulates growth, cell reproduction, and cell regeneration in humans and other animals. PMC 2904392. GH also stimulates production of insulin-like growth factor 1 (IGF-1) and increases the concentration of glucose and free fatty acids. It is thus

important in human development.
PMID 19579232. GH is a 191-amino acid, single-chain polypeptide that is synthesized, stored and secreted by somatotrophic cells within the lateral wings of the anterior pituitary gland. Bartholomew EF, Martini F, Nath JL (2009) a55df8bef3

Symptoms must be consistent and ongoing, persisting at least six months for a formal diagnosis. Individuals with GAD often have other disorders including other psychiatric disorders, substance use disorder, or obesity, and may have a history of trauma or family with GAD. Clinicians use screening tools such as the GAD... a55df8bef3
