

Tourism Management Dissertation Guide

Participatory management of 'softer' and participatory management tools may assist in local economic development through, for example, eco-tourism activities and minimization of Participatory management is the practice of empowering members of a group, such as employees of a company or citizens of a community, to participate in organizational decision making. It is used as an alternative to traditional vertical management structures, which has shown to be less effective as participants are growing less interested in their leader's expectations due to a lack of recognition of the participant's effort or opinion ae10261534

While group leaders still retain final decision-making authority when participatory management is practiced... ae10261534
