Herbal medicine Standards for purity or dosage are generally not provided. (also called herbalism, phytomedicine or phytotherapy) is the study of pharmacognosy and the use of medicinal plants, which are a basis of traditional medicine Herbal medicine (also called herbalism, phytomedicine or phytotherapy) is the study of pharmacognosy and the use of medicinal plants, which are a basis of traditional medicine. Scientific evidence for the effectiveness of many herbal treatments remains limited, prompting ongoing regulatory evaluation and research into their safety and efficacy. The scope of herbal medicine sometimes includes fungal and bee products, as well as minerals, shells and certain animal parts 8efb71fdd2
