Healthy city Its modern form derives from a World Health Organization (WHO) initiative on Healthy Cities and Villages in 1986, but has a history dating back to the mid 19th century. The term was developed Healthy city is a term used in public health and urban design to stress the impact of policy on human health. The term was developed in conjunction with the European Union, but rapidly became international as a way of establishing healthy public policy at the local level through health promotion. It is a municipality that continually improves on a physical and a social level until environmental and pathological conditions are reached establishing an acceptable morbidity rate for the population. It emphasises the multi-dimensionality of health as laid out in WHO's constitution and, more recently, the Ottawa Charter for Health.
