The 1992 book and its follow up books are written in a first person style. The real photographs of the base and crude drawings of the project electronics in the book are used for a false sense of reality. Using a time travel theme, the characters alter history with visits to Jesus Christ, as well as altering the outcome of American Civil War and World War II battles. The authors claim the book is based on their recovery of repressed childhood memories of being abducted and experimented on against their will. In the book they also throw doubt on their claims saying 'Whether you read this as science fiction or non-fiction you are in for an amazing story.'
