Heliox 1172/JCI100758. PMC 424760. It is also used as a breathing gas for deep ambient pressure diving

as it is not narcotic at high pressure, and for its low work of breathing. It is used as a medical treatment for patients with difficulty breathing because this mixture generates less resistance than atmospheric air when passing through the airways of the lungs, and thus requires less effort by a patient to breathe in and out of the lungs.
