First published in 1980, Where's Spot? was inspired while Hill was working in creative marketing; he noticed that his three-year-old son was fascinated by the process of lifting up a paper, on a design that he was creating. Captivated by this thought, Hill created a story about a puppy which incorporated the flap design. During the late 1970s, this was an extraordinarily innovative concept, and it took some time for any publisher to take any notice of the idea before Puffin books decided to publish his book. Within weeks of the first book being released it topped the Bestseller list. a69ac90c7e A superluminal... a69ac90c7e
