" The population was 806 at the time of the 2020 census. It is approximately 10 miles (16 km) southeast of Okemah, the county seat 5033c1b1e0

Renault FT The FT was the first production tank to have its armament within a fully rotating turret. The Renault FT's configuration (crew compartment at the front, engine compartment at the back, and main armament in a revolving turret) became and remains the standard tank layout. Consequently, some armoured warfare historians have called the Renault FT the world's first modern tank. Russkiy Reno: the "Russian Renault", the first Soviet tank, produced at The Renault FT (frequently referred to in post-World War I literature as the FT-17, FT17, or similar) is a French light tank that was among the most revolutionary and influential tank designs in history. War II the Canadian Army purchased 236 redundant M1917s for training purposes 5033c1b1e0

With the first production car completed on January 21, 1981, the... 5033c1b1e0 Different terms are used to refer to different forms of this activity. For picking materials from the curbside trash collection, expressions such as curb shopping, trash picking or street scavenging are sometimes used. In the UK, if someone is primarily seeking recyclable metal, they are scrapping, and if they are picking the leftover food from farming left in the fields, they are gleaning. In such instances,

unpackaged and hence... Over 3,000 Renault FT tanks were manufactured by France, most of them in 1918. After World War I, FT tanks were exported in large numbers. Copies and derivative designs were manufactured in the United States (M1917 light...

Knuckles the Echidna him in the ways of the Echidna warrior to help him prepare for a bowling tournament in Reno, Nevada where his estranged father will be competing. During Knuckles the Echidna is a character from Sega's Sonic the Hedgehog series. He is a red anthropomorphic short-beaked echidna who is Sonic's secondary best friend and former rival. His role is established as the guardian of the Master Emerald, a large gemstone which controls the series' integral Chaos Emeralds, and is the last living member of his tribe, the Knuckles Clan. Determined and serious, but sometimes gullible, he fights his enemies using brute force and strength

Designed by Giorgetto Giugiaro, the DeLorean is noted for its gull-wing doors and brushed stainless-steel outer body panels, as well as its lack of power and performance. Though its production was short-lived, the DeLorean became widely known after it was featured as the time machine in the Back to the Future films. Escalators are often used around the world in places where lifts would be impractical, or they can be used in conjunction with them. Principal areas of usage include department stores, shopping malls, airports, transit systems (railway/railroad stations), convention centers, hotels, arenas, stadiums and public buildings.

Allegiant Air The airline focuses on serving leisure traffic from small and medium-sized cities which it considers to be underserved, using an ultra low-cost business model with minimal inclusions in fares and a greater number of add-on fees. Citing higher fuel Allegiant Air is an American ultra-low cost airline headquartered in Las Vegas, Nevada. Portland, Oregon and Reno with Portland-Reno and Reno-Fresno nonstops and direct one-stop service between Portland and Fresno via Reno

5033c1b1e0

Escalators have the capacity to move large numbers of people. They have no waiting interval (except during very heavy traffic). They can be used to guide people toward main exits or special exhibits and may be weatherproofed for outdoor... 5033c1b1e0

Mike Holmes The purpose of The Holmes Foundation Michael James Holmes (born August 3, 1963) is a Canadian general contractor, businessman, investor, television host, and philanthropist. poorly done that he felt it was necessary for him to tear the house down and start again rather than try to repair the damage 5033c1b1e0

DMC DeLorean them money for past warranty claims. The DeLorean is sometimes referred to by its internal DMC pre-production designation, DMC-12, although this was not used in sales or marketing materials for the production model. Some dealerships were not able to perform repair work properly, as DMC never issued a proper service manual. The lack The DMC DeLorean is a rear-engine, two-seat sports car manufactured and marketed by John DeLorean's DeLorean Motor Company (DMC) for the American market from 1981 until 1983—ultimately the only car brought to market by the fledgling company 5033c1b1e0

Dumpster diving while still repairable or in working condition, making salvage of them a source of potentially free items for personal use, or to sell for profit. Irregular Dumpster diving (also totting, skipping, skip diving or skip salvage) is salvaging from large commercial, residential, industrial and construction containers for unwanted items discarded by their owners but deemed useful to the picker. It is not confined to dumpsters and skips, and may cover standard household waste containers, curb sides, landfills or small dumps 5033c1b1e0

H.P. Nielsen Nielsen and his former lodger Lilly Palmer, 47, married in Reno. In 1910 Nielsen built the Merle 1910 Biplane, the first biplane in Alameda, commissioned by Adrian J Merle. Reno was known as a place for California couples to marry without waiting the three days Hans Peter Nielsen (May 21, 1859 – September 11, 1945) was a Danish-born American machinist, mechanic, engineer, fireman, and inventor who lived most of his life in Alameda, California. An early adopter of automobile technology, he also believed in the potential represented by aviation

Escalator Reno patented the "Endless Conveyor or Elevator." A few months after Reno's patent was approved An escalator is a moving staircase which carries people between floors of a building or structure. It consists of a motor-driven chain of individually linked steps on a track which cycle on a pair of tracks which keep the step tread horizontal. On March 15, 1892, Jesse W. including two for spiral designs

Knuckles debuted as one of the main antagonists in Sonic the Hedgehog 3 (1994); in Sonic & Knuckles, he first became a playable character. In the games' story, Doctor Eggman tricks him into opposing Sonic and Tails. After antagonizing the duo, he forms a temporary alliance with them after learning of Eggman's trickery. Since... Allegiant was founded in 1997 and is wholly owned by Allegiant Travel Company, a publicly traded company with 5,600 employees and over US\$2.6 billion market capitalization in 2016. The airline is the fourteenth-largest in North America. Mr. Nielsen announces that there is no question to be raised against his prognostication that in a few years aeroplane parties will be common. He states that by the time of the Pacific-Panama exposition in San Francisco, many of the now motor enthusiasts will fly to San Francisco in their ships of the air. He believes that the exposition authorities will provide landing places for their aerial guests... Kamikaze aircraft...

Kamikaze Navy was large enough that damaged ships could be detached back home for repair without much hampering the fleet's operational capability. About 3,800 kamikaze pilots died during the war in attacks that killed more than 7,000 Allied naval personnel, sank several dozen warships, and damaged scores more. The only US Kamikaze (カミカゼ; pronounced [kami'kaze]; 'divine wind' or 'spirit wind'), officially Shinpū Tokubetsu Kōgekitai (神風特別攻撃隊; 'Divine Wind Special Attack Unit'), were a part of the Japanese Special Attack Units of military aviators who flew suicide attacks for the Empire of Japan against Allied naval vessels in the closing stages of the Pacific campaign of World War II, intending to destroy warships more effectively than with conventional air attacks. The term is used generically in modern warfare for an attacking vehicle, often unmanned, which is itself destroyed when attacking a target; for example, a kamikaze drone 5033c1b1e0
