European Citizens' Initiative This right to request the commission to initiate a legislative proposal puts citizens on the same footing as the European Parliament and the European Council, who enjoy this right according to Articles 225 and 241 of the Treaty on the. Minority SafePack – one million The European Citizens' Initiative (ECI) is a European Union (EU) mechanism aimed at increasing direct democracy by enabling "EU citizens to participate directly in the development of EU policies", introduced with the Treaty of Lisbon in 2007. This popular initiative enables one million citizens of the European Union, with a minimum number of nationals from at least seven member states, to call directly on the European Commission to propose a legal act (notably a Directive or Regulation) in an area where the member states have conferred powers onto the EU level. Initiative "Ban glyphosate and protect people and the environment from toxic pesticides" "EUR-Lex – 32019R1381 – EN – EUR-Lex"

Holocene extinction Widespread degradation of biodiversity hotspots such as coral reefs and rainforests has exacerbated the crisis. populations are associated with intensive farming practices, along with pesticide use and climate change. Many of these extinctions are undocumented, as the species are often undiscovered before their extinctions. This extinction event spans numerous families of plants and animals, including mammals, birds, reptiles, amphibians, fish, and invertebrates, impacting both terrestrial and marine species. The world's insect population decreases by around The Holocene extinction, also referred to as the Anthropocene extinction or the sixth mass extinction, is an ongoing extinction event caused exclusively by human activities during the Holocene epoch

Environmentalism effects on human health and ecology. The book suggested that DDT and other pesticides may cause cancer and that their agricultural use was a threat to wildlife Environmentalism is a broad philosophy, ideology, and social movement about supporting life, habitats, and surroundings. While environmentalism focuses more on the environmental and nature-related aspects of green ideology and politics, ecologism combines the ideology of social ecology and environmentalism. Ecologism is more commonly used in continental European languages, while environmentalism is more commonly used in English but the words have slightly different connotations
