Adult education It can mean any form of learning adults engage in beyond traditional schooling, encompassing basic literacy to personal fulfillment as a lifelong learner, and to ensure the fulfillment of an individual. Adult learners are also educating themselves Adult education, distinct from child education, is a practice in which adults engage in systematic and sustained educating activities in order to gain new knowledge, skills, attitudes, or values. Adult learners have much more independence in performing tasks, a longer attention span, and more discipline f687fe5e9f

The main approaches to gifted education are enrichment and acceleration. An enrichment program teaches additional, deeper material, but keeps the student progressing through the curriculum at the same rate as other students. For example, after the gifted students have completed the normal work in the curriculum, an enrichment program might provide them with additional information about a subject. An acceleration program advances the student through the standard curriculum faster than normal. This is normally done by having the students skip one to two grades. f687fe5e9f The PBL process was developed for medical education and has since been broadened in applications for other programs of learning. The process allows for learners to develop skills used for their future practice. It enhances critical appraisal, literature retrieval and encourages ongoing learning within a team environment. f687fe5e9f

Situated learning Situated learning "takes as its focus the relationship between learning and the social situation in which it occurs". For example, Hansman shows how adult learners discover Situated learning is a theory that explains an individual's acquisition of professional skills and includes research on apprenticeship into how legitimate peripheral participation leads to membership in a community of practice. concerned adult learners, and situated learning still has a particular resonance for adult education f687fe5e9f
