

Further Maths Project

The school opened in 2014 and specialises in mathematics. It has an approximate 14% acceptance rate. In 2018, the school received nearly 500 applications for 70 places. All prospective students are invited to take a written mathematics aptitude test. Those with... fe5a03dcc1

New Math All of the New Math projects emphasized some form of discovery learning. Students worked in groups New Mathematics or New Math was a dramatic but temporary change in the way mathematics was taught in American grade schools, and to a lesser extent in European countries and elsewhere, during the 1950s-1970s. symbolic logic, Boolean algebra, and abstract algebra fe5a03dcc1

John Foxx and the Maths John Foxx and the Maths is a musical project featuring electronic music pioneer John Foxx, Bengie and more recently Hannah Peel. It was initially a studio based project working from Bengie's studio in Shoreditch, London but has also engaged in live work. The group specialises in the use of analogue synthesizers and drum machines. The group specialises in John Foxx and the Maths is a musical project featuring electronic music pioneer

John Foxx, Bengé and more recently Hannah Peel

FTP has operated a UK-wide educational programme since 2004, and currently works with science education projects across Europe and further afield (e.g. USA, Russia, Israel), including many EU-based science, maths and ICT programmes. FTP specialises in providing physics and maths education and outreach via astronomy and space science, utilising the unique access it can provide to... fe5a03dcc1

King's College London Mathematics School King's College London Mathematics School is run in partnership with King's College London. The school aims to widen participation in the mathematical sciences by supporting young people from backgrounds currently under-represented in these fields. King's College London Mathematics School, also known as King's Maths School or KCLMS, is a maths school located in the Lambeth area of London, England. King's College London Mathematics School, also known as King's Maths School or KCLMS, is a maths school located in the Lambeth area of London, England. The school was inspired by the Kolmogorov Physics and Mathematics School in Moscow, established in 1965 by mathematician Andrey Kolmogorov fe5a03dcc1

The series comprised four programmes respectively

titled: The Language of the Universe; The Genius of the East; The Frontiers of Space; and To Infinity and Beyond. Du Sautoy documents the development of mathematics covering subjects such as the invention of zero and the unproven Riemann hypothesis, a 150-year-old problem for whose solution the Clay...

The Story of Maths However the progress of mathematics continued in the East. The material was written and presented by University of Oxford professor Marcus du Sautoy. Du Sautoy describes both the Chinese use of maths in engineering The Story of Maths is a four-part British television series outlining aspects of the history of mathematics. The consultants were the Open University academics Robin Wilson, professor Jeremy Gray and June Barrow-Green. It was a co-production between the Open University and the BBC and aired in October 2008 on BBC Four. development of maths stagnated in Europe. Kim Duke is credited as series producer

Polymath Project This experiment resulted in a new answer to a difficult problem, and since then the Polymath Project has grown to describe a particular crowdsourcing process of using an online collaboration to solve any math problem. The project began in January 2009 on Timothy Gowers's blog when he posted a problem and asked his readers to

post partial ideas and partial progress toward a solution. then the Polymath Project has grown to describe a particular crowdsourcing process of using an online collaboration to solve any math problem. In January The Polymath Project is a collaboration among mathematicians to solve important and difficult mathematical problems by coordinating many mathematicians to communicate with each other on finding the best route to the solution

Further education FE colleges may also offer HE qualifications such as HNC, HND, foundation degree or PGCE. Further education in Northern Ireland is provided through Further education (often abbreviated FE) in the United Kingdom and Ireland is additional education to that received at secondary school that is distinct from the higher education (HE) offered in universities and other academic institutions. invited for submission before October 2021, for projects which can be completed by December 2024. It may be at any level in compulsory secondary education, from entry to higher level qualifications such as awards, certificates, diplomas and other vocational, competency-based qualifications (including those previously known as NVQ/SVQs) through awarding organisations including City and Guilds, Edexcel (BTEC) and OCR. The colleges are also a large service provider for apprenticeships where most of the training takes

place at the apprentices' workplace, supplemented

LEAP Science and Maths Schools The first LEAP school opened in 2004 in rented premises in Observatory, Cape Town and mainly served the township of Langa. LEAP is an independent school mainly funded by small parent contributions, South African Corporates with limited subsidies from the Department of Basic Education. LEAP Science and Maths school aims to increase the number of black learners who take science and maths-based LEAP Science and

Mathematics Schools or LEAP Schools is a collection of eight low-fee secondary education schools in four provinces in South Africa. and Maths school was the alternative model

MathML The STIX Fonts project have Mathematical Markup Language (MathML) is a pair of mathematical markup languages, an application of XML for describing mathematical notations and capturing both its structure and content. Its aim is to natively integrate mathematical formulae into World Wide Web pages and other documents. supports MathML voicing as well as braille output. It is part of HTML5 and standardised by ISO/IEC since 2015. The quality of rendering of MathML in a browser depends on the installed fonts

Faulkes Telescope Project FTP specialises in providing physics and maths education The Faulkes Telescope Project (FTP) is supported by the Dill Faulkes Educational Trust. USA, Russia, Israel), including many EU-based science, maths and ICT programmes. further afield (e. g. This time is dedicated to education and public outreach, mainly in the UK, but also for smaller, selected projects in Europe and the US. It provides access to 1,500 hours of observing time on two 2-metre class telescopes located in Hawaii (Faulkes Telescope North in Hawaii) and Australia (Faulkes Telescope South in Australia)
