Among other details such as size, proportions and shape, terms defining bird features developed and are used to describe features unique to the class—especially evolutionary adaptations that developed to aid flight. There are, for example, numerous terms describing the complex structural makeup of feathers (e.g., barbules, rachides and vanes); types of feathers... 742f99c7c6 Nelson's Pillar, erected in 1809 to honour the British hero of Trafalgar, was a feature of Dublin for more than 150 years until, suddenly, it wasn't. Before its sudden demise it was both loved and resented by Dubliners, and survived numerous schemes for its removal or replacement with something specifically Irish. A mixture of bureaucracy, s... 742f99c7c6 Driveby comme... 742f99c7c6 Freedom Planet[edit] 742f99c7c6 Jill and Rachel are back! This article failed FAC two weeks ago as a result of the nomination stalling, but had one support and another detailed review that appeared to have come close to culminating as such. The second reviewer also copyedited the article in lieu of further comments at the time. Amphetamine readily distributes into most tissues in the body, with high concentrations occurring in cerebrospinal fluid and brain tissue. Amphetamine properly refers to a specific chemical, the racemic free base, which is equal parts of the two enantiomers in their pure amine forms. It exists as two enantiomers: levoamphetamine and dextroamphetamine. Amphetamine was discovered as a chemical in 1887 by Lazăr Edeleanu, and then as a drug in the late 1920s. The term is frequently used informally to refer to any combination of the enantiomers, or to either of them alone. Amphetamine is also used as. Historically, it has been used to treat nasal congestion and depression. The half-lives of amphetamine Amphetamine is a central nervous system (CNS) stimulant that is used in the treatment of attention deficit hyperactivity disorder (ADHD), narcolepsy, and obesity; it is also used to treat binge eating disorder in the form of its inactive prodrug lisdexamfetamine 742f99c7c6
