Organum In its earliest stages, organum involved two musical voices: a Gregorian chant melody, and the same melody transposed by a consonant interval, usually a perfect fifth or fourth. over 1,[clarification needed] the duplum line explores the harmonious interplay with the tenor, building up to a change of harmony at the end of a melisma Organum () is, in general, a plainchant melody with at least one added voice to enhance the harmony, developed in the Middle Ages. In these cases the composition often began and ended on a unison, the added voice keeping to the initial tone until the first part has reached a fifth or fourth, from where both. Depending on the mode and form of the chant, a supporting bass line (or bourdon) may be sung on the same text, the melody may be followed in parallel motion (parallel organum), or a combination of both of these techniques may be employed. As no real independent second voice exists, this is a form of heterophony f360dea17e
