

Accounting Information Systems 14th Edition

The aim of... 5754953269

Double-entry bookkeeping double-entry accounting, is a method of bookkeeping that relies on a two-sided accounting entry to maintain financial information. The double-entry system has two equal and corresponding sides, known as debit and credit; this is based on the fundamental accounting principle that for every debit, there must be an equal and opposite credit. A transaction in double-entry bookkeeping always affects at least two accounts, always includes at least one debit and one credit, and always has total debits and total credits that are equal. Every entry into an account requires Double-entry bookkeeping, also known as double-entry accounting, is a method of bookkeeping that relies on a two-sided accounting entry to maintain financial information. Every entry into an account requires a corresponding and opposite entry into a different account. The purpose of double-entry bookkeeping is to allow the detection of financial errors and fraud 5754953269
