Social determinants of health The distribution of social determinants is often shaped by public policies that reflect prevailing political ideologies of the area. They are the health promoting factors found in one's living and working conditions (such as the distribution of income, wealth, influence, and power), rather than individual risk factors (such as behavioral risk factors or genetics) that influence the risk or vulnerability for a disease or injury. – N Krieger Key determinants of health (Public Health Agency of Canada) NPTEL – Socio-economic Status and Health Income Inequality and Health Social Determinants The social determinants of health (SDOH) are the economic and social conditions that influence individual and group differences in health status c4332fe027
