List of data breaches Retrieved 30 December 2018. original on 30 December 2018. Breaches of large organizations where the number of records is still unknown are also listed. In addition, the various methods used in the breaches are listed, with hacking being the most common. The list includes those involving the theft or compromise of 30,000 or more records, although many smaller breaches occur continually. "50,000,000 usernames and passwords lost as LivingSocial "special offers" site hacked - Naked Security" This is a list of reports about data breaches, using data compiled from various sources, including press reports, government news releases, and mainstream news articles
