Education in the United States itself in a variety of ways: African-American and Hispanic students are more likely to receive lower grades, score lower on standardized tests, drop out of The United States does not have a

national or federal educational system. The bulk of the \$1.3 trillion in funding comes from state and local governments, with federal funding accounting for about \$260 billion in 2021 compared to around \$200 billion in past years. Educational standards are set at the state or territory level by the supervising organization, usually a board of regents, state department of education, state colleges, or a combination of systems. Although there are more than fifty independent systems of education (one run by each state and territory, the Bureau of Indian Education, and the Department of Defense Dependents Schools), there are a number of similarities between them. Education is provided in public and private schools and by individuals through homeschooling ba126dd55a

Comparison of American and British English
"The Effects of the Revolution on
Language"; in A Companion to the
American Revolution. OCLC 46641801. p.
Likewise, spoken American English varies
widely across the country. Written forms of
British and American English as found in
newspapers and textbooks vary little in their
essential features, with only occasional
noticeable differences. 599 International The
English language was introduced to the
Americas by the arrival of the English,
beginning in the late 16th century. The
language also spread to numerous other parts
of the world as a result of British trade and
settlement and the spread of the former
British Empire, which, by 1921, included
470–570 million people, about a quarter of the
world's population. In England, Wales, Ireland
and especially parts of Scotland there are
differing varieties of the English language, so
the term 'British English' is an
oversimplification. John Wiley & Sons,
