Reading comprehension The opposite of reading comprehension is called functional illiteracy. Reading comprehension Reading comprehension is the ability to process written text, understand its meaning, and to integrate with what the reader already knows. Reading comprehension relies on two abilities that are connected to each other: word reading and language comprehension. Reading comprehension is beyond basic literacy alone, which is the ability to decipher characters and words at all. Comprehension specifically is a "creative, multifaceted process" that is dependent upon four language skills: phonology, syntax, semantics, and pragmatics. Reading comprehension is the ability to process written text, understand its meaning, and to integrate with what the reader already knows. Reading comprehension occurs on a gradient or spectrum, rather than being yes/no (all-or-nothing). In education it is measured in standardized tests that report which percentile a reader's ability falls 105bd17ece
