

Plastic Techniques In Neurosurgery

Hand surgery develop special techniques to manage small bones, as found in the wrist and hand. Pioneering plastic surgeons developed microsurgical techniques for repairing Hand surgery deals with both surgical and non-surgical treatment of conditions and problems that may take place in the hand or upper extremity (commonly from the tip of the hand to the shoulder) including injury and infection. Hand surgery may be practiced by post graduates of orthopedic surgery and plastic surgery and MCh Hand surgery e9b4135113

Neuroplastic surgery The field includes a wide variety of surgical procedures that seek to restore or replace a patient's skull, face, scalp, dura (the protective covering of the brain and spinal cord), the spine and/or its overlying tissues. Hospital in Baltimore, Maryland by a formal collaboration between the Department of Plastic and Reconstructive Surgery and Department of Neurosurgery, under Neuroplastic or neuroplastic and reconstructive surgery is the surgical specialty involved in reconstruction or restoration of patients who undergo surgery of the central or peripheral nervous system e9b4135113

Pediatric surgery and ureters, including renal, or kidney, transplantation), pediatric neurosurgery (surgery on the child's brain, central nervous system, spinal cord, and Pediatric surgery is a subspecialty of surgery involving the surgery of fetuses, infants, children, adolescents, and young adults e9b4135113

Soft-tissue laser surgery is used in a variety of applications in humans (general surgery, neurosurgery, ENT, dentistry, orthodontics, and oral and maxillofacial surgery) as well as veterinary surgical fields. The primary uses of lasers in soft tissue surgery are to cut, ablate, vaporize, and coagulate. There are several different laser wavelengths used in soft tissue surgery. Different laser wavelengths and device settings (such as pulse duration and power) produce different effects on the tissue. Some commonly used lasers types in soft tissue surgery include erbium, diode, and CO2. Erbium lasers are excellent cutters, but provide minimal hemostasis. Diode lasers (hot tip) provide excellent hemostasis... e9b4135113

Neurosurgery Neurosurgery or/and neurological surgery, known in common parlance as brain surgery, is the medical specialty that focuses on the surgical treatment or Neurosurgery or/and neurological surgery, known in common parlance as brain surgery, is the medical specialty that focuses on the surgical treatment or rehabilitation of disorders which affect any portion of the nervous system including the brain, spinal cord, peripheral nervous system, and cerebrovascular system. Neurosurgery as a medical specialty also includes non-surgical management of some neurological conditions e9b4135113

András Csókay head of the neurosurgery department of the Hungarian Army Medical Center from 1 August 2013. He brought with him two surgical techniques, namely the microvascular András Csókay (born 16 February 1956), is a Hungarian neurosurgeon known for his development of a technique to enhance microsurgical precision in the vascular tunnel and for the separation of a pair of Bangladeshi (Islam) Craniopagus Twins e9b4135113

Plastic surgeons and orthopedic surgeons receive significant training in hand surgery during their residency training. Also, some graduates do an additional one-year hand fellowship. Board certified general, plastic, or orthopedics surgeons who have completed approved fellowship training in hand surgery and have met a number of other practice requirements are qualified to take the "Certificate of Added Qualifications in Surgery of the Hand" examination, formerly... e9b4135113

Trigonocephaly 1976 Trigonocephaly is a congenital condition due to premature fusion of the metopic suture (from Ancient Greek metopon 'forehead'), leading to a triangular forehead. Journal of Neurosurgery. The term is from Ancient Greek trigonon 'triangle' and kephale 'head'. It may occur as one component of a syndrome together with other abnormalities, or in

isolated form. doi:10. supraorbital margin. 3171/jns. The premature merging of the two frontal bones leads to transverse growth restriction and parallel growth expansion. A new corrective technique in the treatment of coronal synostosis". 45 (4): 376-81 e9b4135113

Laser surgery Soft-tissue laser surgery is used in a variety of applications in humans (general surgery, neurosurgery, ENT, dentistry Laser surgery is a type of surgery that cuts tissue using a laser in contrast to using a scalpel. laser in contrast to using a scalpel e9b4135113

Microsurgery The most obvious developments have been procedures developed to allow anastomosis of successively smaller blood vessels and nerves (typically 1 mm in diameter) which have allowed transfer of tissue from one part of the body to another and re-attachment of severed parts. gynecological surgery, otolaryngology, neurosurgery, oral and maxillofacial surgery, endodontic microsurgery, plastic surgery, podiatric surgery and pediatric Microsurgery is a general term for surgery requiring an operating microscope. Microsurgical techniques are utilized by several specialties today, such as general surgery, ophthalmology, orthopedic surgery, gynecological surgery, otolaryngology, neurosurgery, oral and maxillofacial surgery, endodontic microsurgery, plastic surgery, podiatric surgery and pediatric surgery e9b4135113

Paul Tessier Today, his techniques are applied not only to plastic and maxillofacial surgery, but also other specialties such as trauma and neurosurgery. He was considered the father of modern craniofacial surgery. He was an Paul Tessier (August 1917 – June 6, 2008) was a French maxillofacial surgeon and one of the founders of plastic surgery e9b4135113

Fedor Krause artistic and musical pursuits in Rome. Krause was a pioneer in the field of neurosurgery, and with Otfried Foerster (1873-1941) was responsible for introducing Fedor Krause (10 March 1857 – in Friedland in Niederschlesien; 20 September 1937 in Bad Gastein) was a German neurosurgeon who was native of Friedland (Lower Silesia) e9b4135113
