Wikipedia:WikiProject Deletion sorting/Science/archive 3 December 2014 (UTC) Design of Propeller by Flow Visualization Analysis using MATLAB Simulink (5132) - delete - closed 01:43, 2 December 2014 (UTC) - This page is an archive for closed deletion discussions relating to Science. For open discussions, see Wikipedia:WikiProject Deletion sorting/Science 982e271a9e

Wikipedia:Reference desk/Archives/Mathematics/June 2006 I've no idea what would cause this. Did you check that the method converged. I'd expect Matlab to print an error message or a warning if it didn't, but 982e271a9e

To report bugs, please write on the Community tech bot talk page on Meta. 982e271a9e

Wikipedia:Reference desk/Archives/Mathematics/February 2006 This is the best

resolution I can get with matlab, but I want more. For example, see the fractal on the right. I hope someone will have something for 982e271a9e
