ISO 9000 family ISO 9000 deals with the fundamentals and vocabulary of QMS, including the seven quality management principles that. The goal of these standards is to help organizations ensure that they meet customer and other stakeholder needs within the statutory and regulatory requirements related to a product or service. It was developed in March 1987 by International Organization for Standardization. The standards were designed to fit into an integrated management system. The ISO refers to the set of standards as a "family", bringing together the standard for quality management systems and a set of "supporting standards", and

Quality management system It is expressed as

the organizational goals and aspirations, policies, processes, documented information, and resources A quality management system (QMS) is a collection of business processes focused on consistently meeting customer requirements and enhancing their satisfaction. By the 20th century, labor inputs were typically the most costly inputs in most industrialized societies, so focus shifted to team cooperation and dynamics, especially the early signaling of problems via a continual improvement cycle. It is expressed as the organizational goals and aspirations, policies, processes, documented information, and resources needed to implement and maintain it. In the 21st.
