Marxian economics Marxian economics comprises several different theories and includes multiple schools of thought, which are sometimes opposed to each other; in many cases Marxian analysis is used to complement, or to supplement, other economic approaches. An example can be found in the works of Soviet economists like Lev

Gatovsky, who sought to apply Marxist economic theory to the objectives, needs, and political conditions of the socialist construction in the Soviet Union, contributing to the development. Its foundations can be traced back to Karl Marx's critique of political economy. However, unlike critics of political economy, Marxian economists tend to accept the concept of the economy *prima facie* of political economic thought. However, unlike critics of political economy Marxian economics, or the Marxian school of economics, is a heterodox school of political economic thought. Its foundations can be traced back to Karl Marx's critique of political economy

Public choice It includes the study of political behavior. In political science, it is the subset of positive political theory that studies self-interested agents (voters, politicians, bureaucrats) and their interactions, which can be represented in a number of ways—using (for example) standard constrained utility maximization, game theory, or decision theory. (1 June 2018). It is the origin and intellectual foundation of contemporary work in political economics. (1908–1991)“; The New Palgrave Dictionary of Economics, 2nd Edition. Congleton, Roger D. “Intellectual foundations of public choice Public choice, or public choice theory, is "the use of economic tools to deal with traditional problems of political science".
