Debits and credits For example, a tenant who writes a rent cheque to a landlord would enter a credit for the bank account on which the cheque is drawn, and a debit in a rent expense account. A debit entry in an account represents a transfer of value to that account, and a credit entry represents a transfer from the account. Each transaction transfers value from credited accounts to debited accounts. Similarly, the landlord would enter a credit in the rent income account associated with the tenant and a debit for the bank account where the cheque is deposited. to debit or credit a specific account, we use either the modern accounting equation approach (based on five accounting rules), or the classical approach Debits and credits in double-entry bookkeeping are entries made in account ledgers to record
