on varying anatomical densities, before striking the film or sensor. Teeth appear lighter because less radiation penetrates them to reach the film. Dental caries, infections and other changes in the bone density, and the periodontal ligament, appear darker because X-rays readily penetrate these less dense structures. Dental restorations (fillings, crowns) may appear lighter or darker, depending on the density of the material. The GATE score of a candidate reflects the relative performance level of a candidate. The score is used for admissions to various post-graduate education programs (e.g. Master of Engineering, Master of Technology, Master of Architecture, Doctor of Philosophy) in Indian...

Edexcel They acknowledged the first two questions of the exam were Edexcel (also known since 2013 as Pearson Edexcel) is a British multinational education and examination body formed in 1996 and wholly owned by Pearson plc since 2005. Its name is a portmanteau term combining the words education and excellence. concerns and mentioned that independent experts did confirm that the exam was "fair and valid". It is the only privately owned
