Climate change denial To a lesser extent, climate change denial can also be implicit when people accept the science but fail to reconcile it with their belief or action. Climate change denial includes unreasonable doubts about the extent to which climate change is caused by humans, its effects on nature and human society, and the potential of adaptation to global warming by human actions. Global Climate change denial (also global warming denial) is a form of science denial characterized by rejecting, refusing to acknowledge, disputing, or fighting the scientific consensus on climate change which exists due to extensive and diverse empirical evidence. gov. science2017. Those promoting denial commonly use rhetorical tactics to give the appearance of a scientific controversy where there is none. U.
