Poverty Inequality: Class Conflict in Historical, Comparative, and Global Perspective, 6th edition. "Contempt for the poor in US drives cruel policies Poverty is a state or condition in which an individual lacks the financial resources and essentials for a basic standard of living. New York: McGraw-Hill. When evaluating poverty in statistics or economics there are two main measures: absolute poverty which compares income against the amount needed to meet basic personal needs, such as food, clothing, and shelter; secondly, relative poverty measures when a person cannot meet a minimum level of living standards, compared to others in the same time and place. Poverty can have diverse environmental, legal, social, economic, and political causes and effects. The definition of relative poverty varies from one country to another, or from one society to another
