Energy policy of the United Kingdom Trust Pearson, Peter; Watson, Jim (2012). Regarding energy self-sufficiency, UK policy does not address this issue, other than to concede historic energy security is currently ceasing to exist (due to the decline of North Sea oil production). There is an ambitious goal to reduce carbon dioxide emissions in future years, but it is unclear whether the programmes in place are sufficient to achieve this objective. The United Kingdom has had success in this, though energy intensity remains high. UK Energy Policy 1980-2020 (PDF) (Report).
